NUMBER 28

Auburn Bank Robbers' Caught.

The Times Special Service.
Russellville, Ky., April 29. --After trailing them all night with bloodhounds on clues furnished by relatives, two men who admitted they were the bandits who robbed the G. W. Davidson & Co. bank at Auburn of \$113,000 in gold, currency and bonds Tuesday were captured at 9 o'clock this morning near Browder, a mining town in Muhlenburg county, thirty miles north of here and ten miles south of Central City.

The men under arrest are Boyd Thomason, a native of this section, for whom the officers had been seeking since the day of the robbery, and a companion named Smith or Shippett, who is said to have come to this section with Thomason from Oklahoma. The men had between \$8,000 and \$12,000 in their possession and said they had hidden the rest of the loot, which was in bonds. This was recovered before their capture through information supplied by Thomason's relatives. They made no denial of being the wanted men and said they would show the officers where they had hidden the rest of the money. The men were caught on Mud River, on the Butler-Muhlenburg border, a mile from Corum's Ferry.

DOG BRINGS BANDITS TO BAY.

The dogs chased the men, all night and were close on them when the men took refuge in the Oak Grove schoolhouse. When the dogs came near again the men ran out of the schoolhouse and down on the river. One lone bloodhound was about ten minutes in advance of the posse and the hound brought the men at bay in a clump of willows on the bank. The owner of the dogs, who had accompanied them from Nashville, was the first man on the scene.

The bandits started to run out of the willows as the dogs' owner approached, but he commanded them to stop. The bandits then threw their guns into the river and held up their hands. A Pinkerton man was close behind and the two took the men into custody, recovering the cash they carried.

A score or more of Pinkerton detectives and county officials participated in the capture, according to a telephone message to the authorities here, where the prisoners were being returned.

The total amount of reward for their capture is \$5,000.

Mrs. Mollie Taylor Dead.

On Wednesday, the 27th of April, Mrs. Mollie Taylor, who was the widow of Dr. U. L. Taylor, died at the home of her daughter, Mrs. Richardson, White Mills, Hardin county, and was buried at Lebanon Friday, the 29th.

The deceased was a daughter of Jack Bridgewater, and was born and reared at Cane Valley, this county. Her parents died many years ago about the close of the civil war. She was twice married, her first husband being Jo Allen, who died at Lebanon, about forty years ago. Some years after the death of her first husband she was married, in Louisville, to Dr. U. L. Taylor, of this place, and immediately came to Columbia to live, spending quite a number of years here. After the death of her last husband she went to live with her daughter Mrs. Richardson, White Mills. She was eighty-two years old.

Early in life she united with the Christian Church, living consistently until the end.

Sewing Wanted.

Mrs. C. L. Skaggs,
at the Fair Grounds.

The Graded School baseball team defeated the Lindsey-Wilson boys in a close game last Wednesday afternoon. The score was 13 and 10.

White's Cream Vermifuge is certain destruction to intestinal worms. It is harmless to children or adults. Price, 35c. Sold by Paul Drug Co.

Why Not?

The old turnpike idea of building roads, and collecting toll from the traveling public was not a bad one, although it seems to have gone into disfavor these latter days. We are not certain that we ought not to go back to it, if we are to have roads fit for public use in this section.

After all, it was not unreasonable, and it furnished a way to keep the roads in repair. It accords with the old axiom that the dancers should pay for the music.

To build roads without some means of up-keep will always prove a failure and result in loss. The toll is not an unfair way to provide for the repairs.

Now, having said this much we wish to inquire why it is not possible to have a toll road between this point and Creelsboro? And why it would not be very desirable for both places?

It would give the latter place an outlet during the summer months for freight, and all the year for travel, and it would open up to Columbia the rich Cumberland bottoms, and freight by way of the river from Nashville and Cincinnati during the winter months. It would add immensely to the intermediate country in wealth and convenience all the year round. Every body would be benefitted, and nobody hurt by what would be put in such a road.

Another thing, the link between Creelsboro and Albany would in time be supplied, and we would then have a direct line between Louisville and Chattanooga.

Creelsboro would certainly grow into a thriving village as it would be the main shipping point on the upper Cumberland.

Why can not this road be built? Shall it be done, or shall we continue to sit with folded hands?

Our readers and advertisers will notice that we have changed the day of publication of the News from Wednesday to Tuesday. We have been printing the paper on Tuesday, the day before its date. We find to continue as heretofore confuses our foreign advertisers, hence Tuesday will be the day and date of the paper from now on.

Raising Red Fox.

Mr. Finis Harvey, a well-to-do farmer, who lives at Fairplay, this county, has turned his attention to rearing red fox. For several years he has been receiving literature upon the industry, and is satisfied that the fox can be reared as well as other animals. They bring a good price, and up to now he has been very successful. He has seven old ones at this time, three females and four males, and the product from the old ones number thirteen. The young ones are old enough to do their own own feeding, and are very playful about the lot where they are kept. He has made preparations to keep them, having erected small houses in the lot. He fully believes that from his present stock that it will not be many years until he will have a large number on his premises. There is a ready demand for them, and from their sales he expects to realize quite a sum of money. People are constantly visiting Mr. Harvey's fox yard.

Lost--A black dog with white spots, white ring around neck. He answers to the name, "Ring." Will pay a reward. Mrs. Emma Grissoms, Columbia, Ky.

Coming Addresses.

Rev. L. B. Hart, of Greensburg, will deliver the baccalaureate sermon for the High School, at the Presbyterian church, Sunday, May 8.

Prof. John J. Hill, Dean of Georgetown College, will deliver the commencement address, at the church, Thursday May 12.

Class night will be at the College Gym Friday, May 6.

Every body invited to attend.

Passing of An Old Citizen.

Last Saturday morning, at 3 o'clock, Mr. Creed Hood, who lived on the Campbellsville pike, three miles from Columbia, succumbed to the inevitable and crossed to the other side.

He was 84 years old last March and was well-known to a great many people of Adair county, having been born and reared near where he died.

When the civil war broke out he espoused the cause of the South, entered the Confederate army and served until Lee's surrender at Appomattox. He served in Morgan's command. When the war closed he returned home and commenced farming. He was a good, substantial citizen all his life, and was a kind and sympathetic man, one who will be greatly missed from the neighborhood.

The funeral was held Sunday, a large circle of friends being present. Burial was in the Cox graveyard. Our sympathy is extended to the sorrowing wife and sons.

Did Not See His Double.

Several months ago Clint Curry, a colored man of this place, who is full of humor, went to Newcomerstown, Ohio, to better his condition. He was gone about two months, and when he alighted from the mail car, on his return, he was met by Lagan Bomar, of his race, who is getting along in years, who addressed him thusly: "Got back has you?" "Yes, I thought I would come home and see my wife and children." "Arhar, you had better stayed. Where have you been anyhow?" "Well, Uncle Loge, I have been to Louisville, Cincinnati, Cleveland, Dayton, and many other large places. I have seen all kinds of men, white men, black men, Germans, French, Italians, men with teeth and men with teeth, but I did not see anybody that looks like you."

Whereupon Loge raised his cane and Clint took to his heels.

Baseball Team Organized.

A number of young men came together last Thursday forenoon and organized a baseball team by electing Herbert Taylor, Manager. A team, made up of the best material in this vicinity, was then selected, and immediately it will go into practice. It is the intention of the manager to have his aggregation in fine shape to meet all comers in a very short time. After a reasonable length of time in practice, the team will be ready to accept all challenges and will make it interesting for any and all nines it may go up against.

Dairy Needed.

We know of no enterprise which would pay better than a dairy established near Columbia, and it is a little strange that some one has not taken it in hands. Very few house-keepers in the town are prepared to keep a cow, and every one needs milk in some quantity. Of all food it is the most perfect, and for many purposes, most needed. If some one would go in the business, and deliver the milk at the doors, as is done in many places not as large as Columbia, we feel sure it would prove profitable, and would meet a much needed demand.

Fifty Years Mason.

At the March meeting of Glensfork Lodge, No. 522, Free and Accepted Masons, Mr. C. A. Walker, who has been an affiliated Mason for fifty years, was voted a certificate of constant service all that long period. For the last fifteen years he has been tiller of Glensfork lodge.

He is a very zealous Mason, never misses a meeting and is proud of the day he was decided to be worthy to become a member of such an honorable and ancient institution.

We understand that the Republican women voters of Adair county are becoming interested in the canvass and that they will all vote their choice.

Mass Meetings.

There will be held mass meetings, in the interest of the Educational Movement, M. E. Church, South, as follows:

May 8th, Cane Valley, 7:30 p. m.
May 15th, Monticello, 11 a. m.
May 23rd, Greensburg, 11 a. m. 7:30 p. m.
May 24th, Mell, 11 a. m., Pickett, 3 p. m., Gradyville, 7:30 p. m.
May 26th, Price's Chapel, 11 a. m.; Clear Spring, 3 p. m.; Mt. Carmel, 7:30 p. m.
May 28th, Breeding, 11 a. m.; Jones' Chapel, 7:30 p. m.
May 29th, Burkesville, 7:30 p. m.

Good speakers will be present at all the meetings and it is hoped that the people will attend.

Considerably Hurt.

Last Friday afternoon Clem Burton a well-to-do farmer of near Purdy, this county, drove into Columbia in his new automobile. After transacting some business, he left for home, driving rapidly. Upon reaching the Harris bridge he lost control of his machine and it turned over, three times greatly damaging it. Mr. Burton was badly hurt about one of his hips and his body considerably bruised. When a physician reached him he was unconscious, and it was thought that he was fatally hurt. He soon soon recovered, and he is now in a fair way to recovery.

Take Notice.

All farmers who have wheat at Farmers, Mill Co., will please call and get their flour and brand. The mill will shortly go into the hands of the new firm, and business new with the old firm must be closed.

24-4t

G. B. Smith,

Special Notice.

Every one interested in the Union Cemetery will please meet at the Cemetery on Saturday afternoon May 28, at one o'clock sharp and bring all necessary tools for the purpose of cleaning the cemetery. The graves will be ready for decoration on the 30th. Everyone who has a relation or friend buried there be sure to come and bring some one to assist in the cleaning as it must be done.

An attack of heartburn or indigestion calls for a dose of Herbine. It relieves the distress instantly and forces the fermented food into the bowels. You feel better at once. Price, 60c. Sold by Paul Drug Co.

Died at Knifley.

On Tuesday of last week, after a long illness, Mrs. Rhoda Stapleton, who was the wife of Mr. Scott Stapleton, died at her home in Knifley. She was 75 years old, and had been a member of the Baptist Church for a number of years. She was a kind, good woman and will be greatly missed. The interment was in the Harding Graveyard, near Plumpoint, many friends attending.

We have interviewed quite a number of the Republican candidates for county offices, and they all reported that they were perfectly satisfied with the canvass up to the present date. There are some who are going to be dissatisfied, and they had as well get ready for the disappointment. When a candidate meets a voter who informs him that he has not as yet made up his mind who he will support; that he will give the matter some attention, put it down in your book that you will not get his vote.

I have just returned from Louisville where I have taken a course in oral surgery and anesthetic under one of the most eminent specialists in the city. Also bought one of the safest and most expensive gas machines on the market. I now feel that I can give the public the very best service in extraction of teeth with or without gas.

Dr. H. W. Depp.

Mr. L. W. Staples, the efficient deputy county clerk, met with a very painful accident last Thursday just after the noon hour. He was en route from home to his office. A car came along and he stepped on the running board and came on to the square. He thought the car was making a stop and he jumped off while it was moving. In lighting he fell on his right arm which was fractured, and his right hand was also considerably hurt. It is hoped that he will be all right in a few days.

Throughout Kentucky, May 1st to May 8th, will be observed as China Famine Week the seven days being designated by Churchmen, laymen and those interested in missions and the work of saving lives, as seven days of sacrifice to help the 40,000,000 inhabitants of the famine area in North Central China. This announcement was issued by the Rev. P. B. Hill, Chairman of the Church Committee of the China Famine Fund, with headquarters in Louisville, the Rev. Dr. E. Mullins being Chairman of the Fund.

Last Tuesday at the noon hour two robbers entered the bank at Auburn, Logan county, bucked and gagged the cashier, W. D. Herndon, and robbed the vault of \$5,000 in cash and \$80,000 in Liberty bonds and the cash drawer of \$1,000. The banks of this place should be well armed and guns placed in all the business houses. Make preparations for the devil before he comes. Without fire arms two well armed robbers could terrify the whole square.

Up in Russell county the candidates are busy, going from precinct to precinct. It is said that the race for County Judge will be the hottest contest. At this time it is reported that the present incumbent, Mr. Hill, and Mr. Carnes, of Sewellton, seem to be the most frequently mentioned, the belief being one or the other will be nominated. A nomination is equivalent to election, all the candidates being Republicans.

Have You a Car?

We do expert starter, generator, Motor, Battery repairing and recharging, Reborling, Oxy-Acetylene welding and Brazing, anything you car needs done. Agents for the Famous General Electric "Titan" Storage battery guaranteed 18 months.

All work guaranteed prices right. Bring your car to the Page garage to have your work done.

Respt.
Myers & Flowers.

The Louisville Times and Evening Post are hereby notified that their papers leaving Louisville at 5 o'clock in the afternoon frequently fail to get here on time. The railway mailing clerk sending them elsewhere. It is a matter that should be looked after. Papers coming in after they are a day old do not satisfy.

Next Saturday afternoon from 1 to 6 o'clock, three trustees for the Graded and High School are to be voted for. The following gentlemen have consented to let their names go before the voters. John Lee Walker, T. E. Waggener, Ores Barger. Every voter interested in the school should support the above named ticket.

Mr. Geo. H. Nell has bought for himself an eight shooter repeating rifle. He has that one thousand dollars in view offered for bank robbers, dead or alive. He is a dead shot, and if yegman do not want to decease, they had better keep out of the range of his gun.

For every purpose for which a liniment is usually applied the modern remedy, Liquid Borozene, will do the work more quickly, more thoroughly and more pleasantly. Price, 30c, 60c and \$1.20. Sold by Paul Drug Co.

Rev. R. V. Bennett preached at Campbellsville last Sunday. His pulpit here was occupied by Rev. Jesse L. Murrell, who delivered two helpful sermons, large audiences hearing him. Students of the Lindsey Wilson furnished the music.

New Candidate.

To the Republican Voters of Adair County:

I am a candidate for the office of sheriff of said county, subject to the action of the voters, as expressed at the August primary. My section has at no time been honored with a county office, and they feel that it should be recognized.

Respectfully,
C. Gowen.

Student's Recital.

Lindsey-Wilson Training School, Thursday evening, May 5, 7:30. Miss Ava Lockard, assisted by Lynn Phelps and Frank Dillon.

For Sale.

A Cornking Manure Spreader, in first-class condition. Also a riding plow. A bargain for the purchaser. Mrs. Lillian Conover.

26-3t.

Mrs. P. P. Wesley, who was a native of Adair county, born and reared near Euuice, died at Liberty last Thursday, buried on Friday. Her maiden name was Rubberts, and she was a daughter of Mr. Dol Rubberts.

We learn that Mr. Geo. T. Flowers, formerly of this place, now a resident of Monticello, and the Sheriff of Wayne county, is a Republican candidate for County Judge of said county. We are for George over any other Republican in Wayne county.

A bad sprain heals slowly if not treated with a remedy that has the power to penetrate the flesh. Ballard's Snow Liniment is especially adapted for such ailments. Three sizes, 30c, 60c, and \$1.20 per bottle. Sold by Paul Drug Co.

Eld. J. P. Bornwasser, who has been pastor of a Christian Church, Paducah has accepted a call from the Church at Campbellsville, and is due to be in the latter place May 1st. He was very successful at Paducah.

Squire Geo. L. Wolford, of Casey Creek, is a candidate for reelection to the office of magistrate. He is an honest man and when a fraud is perpetrated he looks upon it with shame. Give us magistrates that have conscientious scruples.

Mr. E. L. Sinclair has removed from Burkesville street to the residence, below the cemetery, owned by Mr. W. H. Jones. Mr. Sinclair lived in this dwelling a number of years in the past.

Last Friday the 29th day of April, forty-nine years ago from that date the Bank of Columbia was robbed by the James and Young Bros., and it's cashier R. A. C. Martin was shot and killed.

Figures announced by the Census Bureau show that there are 270,626 farms in Kentucky, of which 179,327 are operated by owners, 869 by managers and 90,330 by tenants.

Farmers in Russell county and also Cumberland county, who live on the river, are shipping corn, by boat, to Nashville and are realizing only 25 cents per bushel.

The Kentucky Press Association will meet in Danville June 6, 7 and 8. The editors are looking forward to a most enjoyable meet. This paper will be represented.

Some of the candidates now before the people will learn after the close of the August primary that there are a great many untruthful men in Adair county.

Phelps Bros. received a car load of hogs here last Thursday which they bought from different parties. They paid \$8.50 per hundred.

Monday was county court and the occasion brought quite a number of people to town. Business was fairly good during the day.

MAE GIRACI

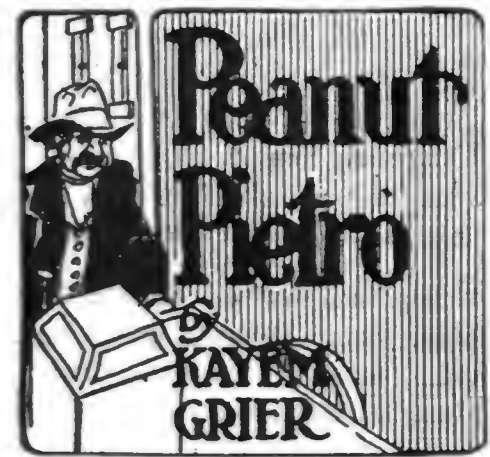

Of all the kiddies who are playing before the camera little ten-year-old Mae Giraci is believed to be one of the most fortunate, for this screen lass is "doubling" for Priscilla Dean in a characterization that shows Miss Dean as she looked at the age of ten. Little Mae started work in the "movies" at the age of six. She was born in Los Angeles and is of Italian parentage.

Marguerite Armstrong

Marguerite Armstrong is regarded as one of the most charming women in the "movies." She is an unusually dainty blonde, and well liked because of being of the especially refined and pretty type. She has been playing the leading role in a recent popular production.

WELL, I been deesa place longa time now and I gotta plenty deesgust for lasta me twenty-fiva year. For longa time I wanta see deesa Washtown, United S. A., but now I no wanta see any more. So I feegure I leava town nexa week and no come back.

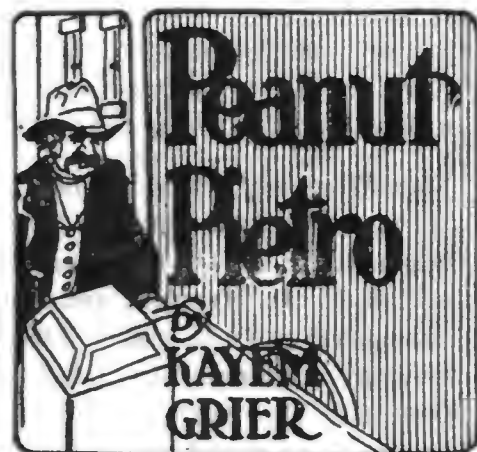

But I wanta tell you someting. Een deesa place ees too moocha job and no moocha work. Everybody gotta posish but no amblish. I meeta plenty people and aska where he work. Mosta da bunch tella me he worka for Uncle Sam. And only ting gotta do here for holda some da job ees seet down and waita for da payday.

Uncle Sam gotta greata beega family but he gotta wronga idee. One my frien gotta beega family, too. But when some hees keed gotta heeg he go out and maka da leeving.

But Uncle Sam gotta plenty keed wot seem lika never getta beeg. Da Uncle he gotta keepa dat bunch so longa he leevae. Eef he no maka some go to work preety queeck mebbe he ees broke before ees olda man.

You know wot's matter here ees too moocha seet down and no moocha work. Eef deesa bunch could maka da egg every time he lay round lika de cheecken we could buy da eggs feefteen cents a dozen.

And eef all da sweovel chair een dees town gotta broke suna time Uncle Sam losa da whole family. Wot you tink?

You know everybody gotta trouble somatime weeth da wife. But I tink da Pres gotta righta idee deesa time. I tink he ees smarta guy eef he starta speaking to her even eef he hava to stop maka speech leetle while.

Wot you tink?

LIBRARIES.

THE forerunner of the modern libraries were the collections of manuscripts and clay tablets which the ancients made. The literary library of Ashurbanipal at Nineveh dates back to 608-626 B. C. Other libraries and collections of Archives have been discovered at Nippur, Babylon, Larsa, Eveh, and other lost cities. Some of these seem to date back to almost 2000 B. C.

THERE IS MANY A CRACKED OLD NUT WITH A FINE BUG IN IT

PLAGUE IS PERIL TO CHINA'S GRANARIES

Bubonic Sweeps Southward In Manchuria; Dead Donkey Brings \$2 as Food

"SPEED UP FUNDS," IS PLEA

In a recent report from Charles R. Crane, U. S. Minister to China, to the American Committee of the China Famine Fund, it is stated, that a Bubonic plague which a few months ago appeared in Northern Manchuria, has crept southward until it now threatens the main grain supply of China, which increases the burdens of this woe-beset nation.

As far back as 1917, China's troubles began to multiply when the Yellow River, always known as "China's Sorrow," overflowed its banks and swept the great provinces of Shantung and Shansi. The crops were destroyed and millions of persons made homeless. Floods are not unusual in north China, but then came the great drouth and not until last summer did the rain clouds come between the dry brown earth and its tormenter—the sun.

Faced Peril in Silence.

But, during these days, months and even years, when the food was gone, China did not raise her voice for help. The world did not know of the great tragedy in the Far East enacted on a parched stage with 45,000,000 famished people as the actors.

It seemed that at last their troubles had ended when the green things began to peep above the ground last summer. Then came that old enemy of mankind—locusts in droves, in clouds so thick they obscured the light of sun descended as from nowhere, and almost over night the earth was stripped of every living growing thing. The stage once more was a parched, brown, dry desert; but many of the actors had passed into the land of their ancestors.

In some recent information received, an instance is recited describing the terrible destitution of the famine stricken land—a donkey had died in a distant province from lack of food. Its owner carted it into the interior of the famine area where eager bidders finally ran the price up to \$2 to use its carcass for food.

Plague Threatens Granaries.

And now the plague threatens China's granaries. Unless the plague can be checked, Mr. Crane asserts, the granary relied on for the relief of millions of famine victims in North China will be cut off.

"The situation is rendered more serious," writes Mr. Crane, "by the fact that Manchuria is literally crowded with foreign exiles." There are no fewer than 600,000 Russians who fled before the Bolshevik executioners, 250,000 Koreans, and thousands of Chinese who formerly lived in Siberia, but who have been driven into Manchuria by the Red Armies.

"Concerted efforts are being made in cities and towns along the Chinese Eastern Railway to combat the plague, hospitals being established and the victims isolated. Efforts also are under way to fight the source of the disease—the rats that carry the germ. Thousands of persons already have died, and have been given hasty burial.

Spells Doom For Millions.

"If the grain supply of Manchuria is cut off, the famine victims in Shantung, Chihli, Honan, Shansi and Shensi will be doomed, Manchuria representatives of the American Red Cross, the Chinese Red Cross and the Y. M. C. A. have informed the Peking authorities of the danger and urged that grain buying and shipments be hastened."

In the famine area there are approximately 40,000,000 persons subsisting on dry leaves, bark and roots, and only through the speed of funds to obtain this grain before it is cut off by the plague can these people be saved from death by starvation.

The raising of funds now, at the time when all efforts must be speedily put behind the work, is possible only through organizations in local communities. The Rev. Dr. E. Y. Mullins, Chairman in Kentucky for the China Famine Fund, issued a call to persons in each community in Kentucky to get together at once and form a local organization for the solicitation of funds for these starving people before it is too late to save them. Through the China Famine Fund money collected in America is distributed to every organization in the famine district doing relief work. The task is too big for one organization, the American Red Cross reports. The Red Cross already has appropriated \$1,000,000 and has a large force of workers in the field. "It is a humanitarian call," says Dr. Mullins, "the need is great and the time element is an important factor. Wherever Committees have not been formed within the confines of this State, sympathetic friends are urged to form their own committee and ask the headquarters at Room 9, Board of Trade Building, Louisville, for further information. It will be gladly furnished.

How to be Miserable.

In the first place, if you want to be miserable, be selfish, think all the time of yourself and of your own things. Don't care for anybody else. Have no feeling for anybody but yourself. Never think of enjoying the satisfaction of seeing others happy, but, rather if you see a smiling ace, be jealous lest another should enjoy what you have not. Envy every one who is better off in any respect than yourself; think unkindly toward them and speak lightly of them. Be constantly afraid lest some one

should encroach upon your rights; be watchful of it and if any one comes near your things, snap at him like a dog. Contend earnestly for everything that is your own, though it may not be worth a pin, for your "rights" are just as much concerned as though it were a pound of gold. Never yield a point. Be very sensitive, and take everything that is said to you in playfulness, in the most serious manner. Be jealous of your friends lest they should not think enough of you; and if at any time they should seem to neglect you, put the worst construction upon their

conduct you can. Thus you will keep yourself unhappy.

Trade letters from Chicago show more marked business improvement in that center than in New York. The late business depression began in Chicago, and reached New York two months later, and it is, therefore, not surprising that Chicago has finished the process of liquidation earlier. The monthly report of the Chicago Federal Reserve bank is notably encouraging.

Bandits robbed sixteen men in a Baltimore club and secured \$7,000.

NINETEEN YEARS IN KANSAS.

[BY R. W. ALLEN.]

In a short time good wife and the twin boys, Ray and Ralph, retraced our first route going down, back through Lapland Okla., and into Kansas in the same hoopy in which we descended on Arkansas 1 year before, making the return trip in just ½ the time (2½ days) we were in going, landing in Silverdale, the eve of the 3rd day, after the start. All now being reunited again in Kansas, settled down to business, but finding myself up against hard competition, resolved to overcome by all odd. So the first thing that I did was to send back to Arkansas and get me 3 barrels of old-fashioned Arkansas sorghum molasses and advertised them. The people were soon coming my way. In the meantime my competitor sold his stock of goods to a trader in Tennessee and he shipped the stock back there, leaving me an open field. So I ran along that year and the next having a good trade, but then at the end of the 2nd year, 1919, I concluded it was best to be on the safe side. Things were high and would probably go higher, but I figured that deflation would eventually follow inflation and if a man staid in business he would stand to lose all, so I decided to close. In October, 1919, I put on a sale of 1 month and then followed with 2 days' auction, and closed most all my goods out I could not be idle long so I looked around for a business in which there was not much risk, and was not long in finding it, the hay business. I went to work to build up a trade down in Arkansas and the oil fields of Oklahoma. Had a good business till this winter. Feed rates got so high and hay went down so low that there is not enough profit to satisfy me, so I quit the business and accepted a position with Baker Medicine Co., as salesman for all of Butler Co., Kansas, and will move my family, with my few belongings, to Augusta about Thursday of this week, March 10, 1921, and take up the work of distributing medicine to the well generally, and to the sick when needed, and in conclusion will say that I will be located at Augusta, Kan., after March 10th, and will be glad at any and all times to hear from any of my relatives and friends in old Kentucky. So closing this letter which is 19 years long and giving you and idea of my ups and downs during that time, I bid you good night, wishing you many happy dreams.

I am yours truly,
R. W. Allen.

Health of this community is better at present.

Farmers have been making good use of all the pretty days. Some corn has been planted.

Mr. G. A. Bradshaw, who has been real sick, is able to be out again.

Mr. Scott Nunn, who is representing the McIntire Portrait Co., was in our midst last week.

Fred and Noah Rowe, Sparksville, visited friends and relatives at this place the latter part of last week.

Hugh Ross a champion prize fighter visited his parents and sisters, this place, Saturday and Sunday.

Miss Mirtie Bennett entertained a number of her friends Saturday night with an apron party. The young men played their parts well as a seamstress. Carl Calhoun, of Dent received the premium for displaying the nicest work.

I wish to correct a mistake which was made in my last letter stating that E. R. Willis sold a mare for \$50. It was \$150.

Hadus Harvey and Willie Bennett, of Dirigo passed through last week enroute to Jamestown.

Rev. F. J. Barger filled her regular appointment at Pleasant Hill Sunday.

Why Suffer?

Cardui "Did Wonders for Me," Declares This Lady.

"I suffered for a long time with womanly weakness," says Mrs. J. R. Simpson, of 57 Spruce St., Asheville, N. C. "I finally got to the place where it was an effort for me to go. I would have bearing-down pains in my side and back — especially severe across my back, and down in my side there was a great deal of soreness. I was nervous and easily upset."

Fair Play.

Some of our farmers have planted some corn. Looks like they will have to plant it over as it is not coming up.

Mr. J. O. Bennett left for Jeffersonville, Ind., last Friday after spending a month visiting relatives at this place. While here was happily married to Miss Susie Potts, who will join him as soon as Ollie gets a house furnished. We wish them much success. They will make Jeffersonville their future home.

Mr. Lander McIntire is on the sick list.

There has been a tramp making his rounds in this vicinity for several weeks. If he has no business other than beg bread, we wish Jailer Tarter would come and get him and give him his feed.

Roy.

We are having some real cool weather at this writing.

Mr. Matthew Leach who has been very sick for the past two weeks is better.

Mrs. Laura Simmons and children, Edna and Morris, visited friends and relatives in Russell county, near Eller, a few days last week.

A little son of Mr. and Mrs. Tede Moore has been quite sick for a few days.

Mrs. Bessie Cheatham who has been visiting her Mother, Mrs. E. Epperson, place, for the past two weeks have returned home.

Mr. S. P. Sullivan who has been in a serious condition for some time remains about the same.

The Sunday School at White Oak is progressing nicely.

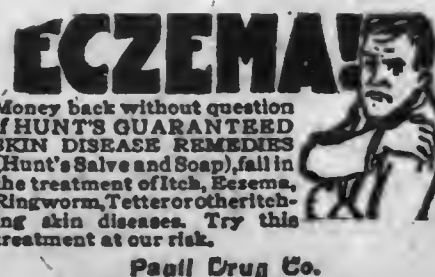

Mr. Bayard Antle who has

been sick for sometime improves slowly.

Wheat, grass and oats are looking nicely in this part of the county.

As news is scarce I will close with best wishes to the News and its many readers

There is such a thing as real economy and such a thing as bogus economy, and the reductions in cost that Congress has ordered applicable to the American consular service certainly is of the latter brand. This is a matter that should be brought promptly to the attention of Congress by the President in order that some of what has been done may be undone. Unless Congress gives back to the consuls the clerical assistance they formerly had, it is impossible to expect that they keep our business interests informed about the movements of foreign trade.

Great Britain and France have both yielded to this country in the matter of the Yap mandate.

Trading in Russia.

The Russian Soviet has placed an order for 500 locomotives with the Krupp Company, in Germany, and has apparently made arrangements for paying for them that are satisfactory to the Krupp managers.

This is one of the best things that could happen. If Germany can revive an active commerce with Russia a long step will have been taken toward the restoration of Europe. Despite what is said to the contrary, Germany will not for years be able to compete in the overseas trade. But she is close to Russia; she knows Russian commerce if anyone can. And only through selling goods in Russia can Germany gather the resources to pay her indemnity bills.

DEMOCRATS ATTENTION.

By order of the State Central and Executive Committees of the Democrat party, the Democrats of Adair county, women and men, will meet at their respective voting places the first Saturday in May which will be the 7th day in the month, and elect two precinct committeemen, a woman and a man. You will note that every precinct must elect a woman as well as a man, the woman to be vested with the same power as the man.

On the following Monday all the committeemen, men and women, will meet in Columbia at 1 o'clock, p. m., and elect a county chairman.

Hon. G. L. Perriman, of Pellyton, was in Columbia last week. We asked him how the Republican candidates were running in his end of the county, and he answered that the canvases had not opened as yet, and at this time there was no perceptible interest being manifested for any particular candidate.

Last week we had an article about the growing evil of making and selling moonshine whisky in Adair county and it met the approval of our readers, as we are informed. It occurs to us that the Republican papers in the Somerset Judicial district are acting very foolishly and unjustly. They do not know who will be nominated and much they are now saying will have to be taken back after he successful candidate in the primary is named. Some of the candidates they are now digging

A bill has been presented to Congress for remodeling the governing body of the Federal Reserve system. Under this plan neither the Secretary of the Treasury nor the controller of the Currency would be on this board, but the system would be managed by eight men named by the President, and independent of the latter after their appointments had been confirmed by the Senate. The theory of course is that the President would appoint the men the Senate want, and then the control of the Federal Reserve would be in the hands of Congress. It is a bad idea, but doubtless a part of what is going on at Washington, to wit, a persistent effort to weaken the power of the executive.—Louisville Post.

Mr. C. Gowen, known as Neece Gowen, publishes a card in today's News, announcing his candidacy for Sheriff of Adair county, subject to the action of the Republican primary which will be held Saturday, August 6. Mr. Gowen was born and reared in the Western portion of this county, and is known throughout Adair as a splendid citizen, upright in all his transactions. He is an old line Republican, and this is the first time he has ever offered for office. He feels that he is fully capable of conducting the affairs of the office in a most satisfactory manner. He has stood for law and order since he was old enough to distinguish between right and wrong, and he promises that should he be nominated and elected he will carry into effect the duties of the office without fear or favor. He will have no pets, all men being treated exactly alike. His character as a citizen is an open book, and he is not afraid of his record. In a short time Mr. Gowen expects to visit the voters of the county and present his claims. He asks that his friends over the county become active in his interest.

The first attack in the Senate on the Knox peace resolution came from the Republican side, Senator Nelson, of Minnesota, chairman of the Senate Judiciary Committee, characterizing the resolution as "unusual, halting, equivocating, and only a partial and piecemeal work." His opposition shattered hopes of leaders for a solid Republican lineup for adoption of the resolution. Neither Senator Knox, of Pennsylvania, author of the resolution, nor Senator Lodge, chairman of the Foreign Relations Committee, which urged its adoption, was prepared to open the debate when the resolution

came and Senator Nelson proceeded with the delivery of his prepared address. The Minnesota Senator was in the mild reservationist group of Republicans during the treaty ratification fight in the Senate. He contended that the Knox peace plan omitted important essentials for a just, permanent and lasting peace—reparation and disarmament—and that its passage would encourage Germany to continued resistance of allied reparations demands.

Valrico, Fla.

To The Adair Co., News:

If you will allow me a space in your paper I will send you a few words. I will tell you who I was nine years ago this coming October when I left the State of Kentucky where my father was well-known in Adair county, especially about Columbia, Sparksville and Greensburg. I was not more than fifteen years old when I left Adair county, and I did not know what I could do until I tried. My father was a machinist, running a threshing machine for about ten years.

I always wanted to be a musician, and I did not know what an automobile looked like. My father brought me down to the State of Florida and set me down shoe mouth deep in the sand. When I got through picking sand spurs out of my feet, I got a pair of shoes and off I went. The first man I asked for a job in a shop was E. D. Veeld. He put me to work on an automobile, as my mind led to machinery, and I was taught rapidly. In nine years I became a very good machinist, and now I have a paying job with the Florida Orange and Grape Fruit Growers. They have four J. I. Case gasoline tractors, and one traffic truck and I am keeping them all going. I have been working here for six years and the longer I stay the longer I want to stay.

I think, though, in a short time I will pay my old home a visit. I will tell you more about Florida in my next.

Very truly,
Rollin J. Cummins.

Fordson

Power Farming
With The Fordson

The Fordson Tractor is taking care of every power job; it is taking the drudgery out of farm work and solving labor problem. Power farming with the Fordson reduces the cost of preparing land to almost one half what it would be with horses, and saves a third to a half of the farmer's time. What machinery does for the factory, the Fordson Tractor is accomplished on the farm—it is increasing production at lower costs and making farm life attractive.

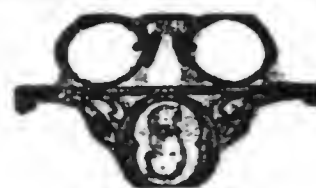

Apply this power farming idea in your threshing. More and more farmers are making themselves independent of unfavorable conditions by using the Fordson tractor linked up with a light thresher. By seizing the right moment and being able to do the job without waiting and in quick time, crop losses are avoided and profits increased.

The Fordson operates with kerosene. When used on belt work, running at full power at 1,000 R. P. M., the fuel consumption does not exceed 2½ gallons per hour. It will run the electric light plant, operate the milking machines and straw baler—will take care of every kind of belt work.

The Fordson plows 6 to 8 acres in 10-hour day, handling two plows with ease in the average soil. It requires an average of only 1½ to 2 gallons of kerosene to the acre.

It is the ideal year-round tractor. It will pay for its fall and winter keep in many ways such as road work, hauling grain to the elevator, pumping water and moving granaries.

OIL AND GAS

Adair, Cumberland, Russell
Counties, Kentucky.

BY E. T. KEMPER.

Somerset light crude oil is now selling at \$2.20 per barrel, having taken another advance of twenty cents during the past week. This is very encouraging, and it is hoped and believed that it is but the beginning of the advance to follow until the return of normal prices.

The E. J. Schabelitz Oil Company, operating in the Brush Creek field, are shipping in a big rig which is one of the most powerful ever seen in that section. These people have already met with fine success there, and their outlook for the future in the field is very encouraging.

A number of the local oil fraternity were on a tour of inspection of the Brush Creek field during the past week, and they report unusual activity all along the line. They also confirm the report being freely circulated, that a number of additional drilling rigs are due to arrive in that field within the next few weeks.

Mr. Dent Reid, a well-known oil man of Winchester, Ky., accompanied by a party of three others, representing two of the largest operating oil concerns of the country, passed through here a few days since on their way to Cumberland county where they inspected the different fields of that section. Their investigations were of a strictly private nature, and they had nothing to give out at present for publication.

Weller & Company, Birmingham, Alabama, have moved a rig on to the Sam Birdwell farm, some two miles east of the present operations in the Creelsboro field, on the south side of the river, and they will begin drilling here at once. The result of these operations will be watched with more than passing interest, and should they prove successful this will extend the field east and up the river a considerable distance.

More than passing interest is being taken by outside oil people in the result of the operations of the Columbia Development Company on the Rowe farm just north of town, and certain parties who have plenty of capital back of them and who believe deeper drilling is necessary for good results in this section, have indicated that they would be willing to take over the proposition on an equitable basis, and push it to a completion.

Messrs. J. Gourley and B. E. Embry, representing the Lexington office of the Superior Oil Corporation, accompanied by Mr. A. C. Phillips, of Philadelphia, were here during the past week for the purpose of getting data on and of inspecting certain acreage located in the southeastern portion of Green county, and adjoining the Adair county line. They seemed to be impressed with the information they obtained while here, and it is hoped they may soon decide to begin operations in this territory.

A phone message was received

here on Friday last to the effect that well No. 1 Day Oil Company, on the Granville Williams farm, Creelsboro, had blown off the casing-head with terrific pressure, and oil is flowing in such a volume that the whole country by is flooded. A large force of men are on the ground working in an effort to stop the waste and confine the oil to a 500 barrel steel tank on the lease. No. 2 well on the same lease is now drilling, and indications are that another great well will be brought in there at no distant date.

Mr. W. E. Sarvent, who has been spending considerable time here recently, advises that he is leaving this week for Chicago and New York, to be gone a few days, and that upon his return here he and his associates contemplate inaugurating an aggressive and extensive drilling campaign in this territory.

A reliable report is just received here to the effect that the Victor Refining and distributing Company, Nashville, to overcome the absence of enough storage tanks along Cumberland River, are contemplating placing barges at different points where oil is available from wells, and as fast as a barge is filled it will be pulled out and replaced with an empty, thus overcoming any delay which might arise due to insufficient storage.

OIL IS KING.

The following is from The Courier-Journal, Monday morning, April 25, 1921:

The Oil motif has been heard ever and anon in the national symphony. Wars have been fought over coal and iron beds. Why have France and Germany played battledore and shuttlecock with Alsace-Lorraine all these years? They are very pretty provinces with a great many sentimental attachments for both peoples, but underneath the green fields and picturesque villages is Iron ore!

The world wags on. Oil is centrifugal force now. It runs automobiles, locomotives, gasoline stoves, motor boats; it is fluid precious beyond compare, protean in its manifestations and coveted everywhere. If coal is the great industrial mineral, oil is the great pleasure mineral. America is a pleasure-loving country. Argal, we must have oil.

Any doubt as to the ratification of the Columbian Treaty was quickly settled when Secretary Fall hinted that it was necessary so that America could obtain and hold valuable oil concessions in Columbia. The Senators, like all other Americans, jumped when oil was mentioned. A great row was made over Britain's Mesopotamian mandate because it was thought that the English would drain the rich oil fields of Mesopotamia during their occupation.

But EARL CURZON quiets fears when he says that Britain has made no preparations to obtain exclusive possession of the oil re-

sources. And, if he may be believed, he strikes a reassuring note for all oil-users, here when he says that more than 80 per cent of the petroleum production of the world is in America's hands, while Great Britain controls only 4½ per cent. Apparently there is no reason for supposing that a tariff on oil would interfere seriously with our joyrides and automobilistic peregrinations.

America can wear the crown of oil king easily, even jauntily. If the greasy fluid retains its vogue, there will not be a person in the United States in the next few years who does not burn it, sell it, buy it, drill for it or find it present in some manifestation of his complex and interrelated existence.

Local Manager Wanted.

Unusual Opportunity for Right Man.

A large brokerage firm doing a successful business with well-rated concerns throughout the country, wants a capable man at once to develop and handle their local business.

The opportunity is an unusual one be-

cause of the possibilities offered for substantial earnings in a highly respectable business which will steadily increase as it becomes more firmly established locally.

The position requires a man possessing executive and sales ability with business experience and having commercial banking connections, although no investment is necessary. He may devote only a portion of his time to the business at first if desired, though we prefer a man who is able and willing to give the business his entire time and best efforts.

The local branch should pay from \$2500 to \$10,000 the first year, according to population and the ability of the manager, as the commodity which we handle is a staple, always in demand, and which our large buying facilities permit us to sell at less than average market prices.

Owing to the demand, we must fill this position at once. Send your application to Guarantee Coal Mining Co., Como Bldg., Chicago, Ill., but do not write unless you can satisfy us as to honesty, reputation and business ability.

When your breath is bad, appetite poor, and you feel "blue" and discouraged, you need Herbine. One or two doses will set you right. It is a great system purifier. Price, 60c. Sold by Paul Durg Co. Adv.

Your Home, and Ours.

The following editorial is from the Lancaster Record, and as it is very applicable to Columbia, we reproduce it:

No matter how much of a chestnut a story may be, it is always new to the person who hears it for the first time.

It is even so when we advocate faith in, loyalty to, and the building up of the home community. We have written and preached until the subject has almost become a chestnut, yet in every new effort of our pen there is a sentence somewhere that strikes a sympathetic chord in the heart of some person. No effort for local betterment is entirely in vain.

We live in this town because we believe in it. We believe in it because it is a good town, regardless of its few defects, and its people are the peers of those to be found anywhere.

This town may not have the wealth of some more favored communities, but it has character, and character is a possession which cannot be purchased with gold.

If you believe in your home town you will like it, and if you like it no effort toward its improvement will be too great for you.

Again we ask you who have faith in your own powers to also have faith in your own town.

When you feel like criticising it, check the thought before it is spoken. You can always find something good to say instead, and even then the half of the truth will never be told.

It is a good town now, but faith, loyalty and united action will make it a better one.

Our faith in this town brother, is simply faith in you, because the town is a collection of your's.

Surely your faith is not less than ours.

Let us unite—let us act—for a better and a more cohesive community.

It is your home—and ours.

What's in a Name?

On a certain public work in progress in Washington there are employed by the government a considerable number of negro laborers, some from Virginia, some from Maryland and some from other parts farther south.

To one newcomer, a dusky fellow, put some questions touching his identity, beginning with "What's yo' name, anyhow?"

"Mah name's Wood," said the new man.

"Huh! What's yo' wife's name?"

"Mah wife's name? Her name's Wood' of course."

"Huh! Both Wood! Any kind-lin'?"

The Boston Transcript is disposed to sneer at the Woodrow Wilson Club recently organized at Harvard University. Well, the most distinguished Harvard man now living, no other than Charles W. Eliot, if a strong supporter of Woodrow Wilson, and another famous Boston citizen, no other than Richard Olney, was of the same persuasion.

Sunday Says:

"I wonder at God's patience with people. You can't even draw a breath without the will of God."

"God translated the Bible so that 300 million people can read it that would not have read it."

"You can't sit around like a frog on a log and expect the preacher to pray for you while you fan yourself and say, 'Oh, isn't it hot!'"

"You can cut a little potato and put in an eye and God will give you a hill."

"I wouldn't take a million dollars for the physical benefit that my life as a ball player and athlete is to me now."

"You cannot tear the miracles out of the life of Jesus Christ and keep this historic fabric intact."

"The world is hungry. Jesus faced a problem of physical hunger in his day and we face the problem of hunger in the modern world."

"Sometimes a so-called religious observance may be an actual hindrance to religion itself."

"There is no substitute for the sun, and there is no substitute for religion by Jesus Christ."

"The church has the power to feed this hungry world, thank God."

"A multitude are preaching the principles of religion, but they are not preaching the teaching of Jesus Christ."

"Let's all do our level best to try and feed this old city, whose heart seems to be hungry for the gospel."

"Why are they handing out garbage to the folks instead of giving 'em porterhouse beef-steak with baked potatoes, a little apple sauce with some nutmeg in it, stewed tomatoes with out bread in it, a little coffee with a little whipped cream, a little piece of pie with whipped cream?"

"I blame the pulpits more than I do the pews. You bet your boots! You've got a lot of the rankest, good-for-nothing infidels in your country, in orthodox pulpits, too."

"Old Buddha was a genius, but his influence was exemplary only. He tells us to illustrate the attitude of self-forgetfulness. Remember, the principles of Christian Science are a revamp Buddhism for the twentieth century."

Not Yet.

Even the headlines over the news that Japan is conscripting and buying war supplies fail to convince The Times that a real war cloud hovers over the Pacific—as yet. It may come. A certain group of well-meaning people in both countries are doing all they can to waft upward the noxious mists which will form such a cloud. Japan's disinclination to give up anything that she has grabbed, and the pleasant conviction of her emigrants that the white race would be improved by amalgamation with the brown, are factors contributing toward painful international relations.

But there is every conceivable reason why there should be no war between the two nations, and most of these reasons appeal with greater force to Japan than

to the United States. As for the news: Japan's conscription measures read no more alarmingly here than did in Japan the President's recent utterances about "the largest navy in the world." The vibrations that have agitated the Pacific cables in a westerly direction have been of an America that was going to be ready for any war emergency with a great Navy, a vast reserve and bulging arsenals. No doubt in Japan it is felt that the United States is in a particularly belligerent mood these days.

The pity of it is that the current interchange over Yap, and the ever present difficulties in California, come at a time when the United States has no foreign policy but merely a stupid belligerence about its own hemisphere. During Mr. Wilson's administration, the League of Nations was a standing offer to this country as the surest agency to prevent war and to settle peaceably such disputes as that over Yap. Now Mr. Harding has scrapped the League of Nations, and the world has nothing definite with which to counteract the efforts of jingoes to make war clouds out of diplomatic jockeying.

Investors in munitions materials may get a few points rise out of current news, but The Times does not believe anything more serious is coming yet.—Louisville Times.

A Tribute To Water.

Col Bob Waxe, at an annual meeting of the Bar Association of Arkansas, responded to the toast, "Water." Said he:

"Mr. Toastmaster, Ladies and Gentlemen: you ask me to respond to the toast, 'Water,' the purest and best of all things ever created. I have seen it glisten in tiny tear-drops on the sleepy eyelids of infancy; I have seen it trickle down the blushing cheeks of youth, and go in torrents down the wrinkled cheeks of age; I have seen it in tiny dewdrops on the blades of grass and leaves of trees, flashing like polished diamonds when the morning sun bursts in resplendent glory over the eastern hills; I have seen it trickle down the mountain's side in tiny rivulets, with the music of liquid silver striking on beds of polished diamonds; I have seen it in the rushing river, rippling over pebbly bottoms, purling about jutting rocks, roaring over precipitous falls, in its mad rush to join the Father and, in the mighty Father of Waters I have seen it go in slow and majestic sweeps to join the ocean, on whose broad bosom float the battle fleets of all nations, and the commerce of the world, but, ladies and gentlemen, I want to say to your now, that as a beverage, it is a failure."

The city of Atlanta approved a \$10,000,000 bond issue the other day by an impressive majority. The money is to go for civic purposes. It may be that our people have grown accustomed to large sums, for it is far easier that was once the case to get bond issues through. But mistakes may be made. Arkansas voted enormous sums in bonds for roads, and Arkansas is nearly insolvent today.

The Turks have defeated the Greeks after a nine days battle and the army of Constantine is in full retreat.

Schools Are Making Filipinos An English Speaking Race

This is the type of schoolroom that is rapidly making an English speaking
nation out of the 10,500,000 inhabitants of the Philippines.

If a teacher in a public school in
the Philippines desires to punish a
child, she doesn't have to apply the
ruler. She simply sentences the offend-
ing pupil to remain away from school
a few days!

This is the most severe punishment
she can inflict, for Filipino children
take an almost abnormal pleasure in
going to school and acquiring an edu-
cation. The all-Filipino legislature, in
response to the popular demand for
"schools, and still more schools," is
constantly increasing its appropri-
ations for education, but the schools can
scarcely be constructed fast enough to
care for the ever-increasing enrollment.
The school enrollment is now 892,000
without any compulsory attendance
laws. When Dewey sailed into Manila
Bay there were 2,100 private schools
in the islands. Today there are 6,500
schools and colleges, with 17,000 Fili-
pino teachers and about 1,000 other
teachers, 341 of whom are Americans.

The University of the Philippines is
the center of learning of the entire
Orient, and is the pride of the Fili-
pino people. It has an enrollment of
3,500 students. Santo Tomas univer-
sity of Manila, older than Harvard, is
another famous seat of learning.

The school system includes normal
schools, agricultural colleges, twenty-
seven farm schools, a nautical school
and a school for the deaf and blind.

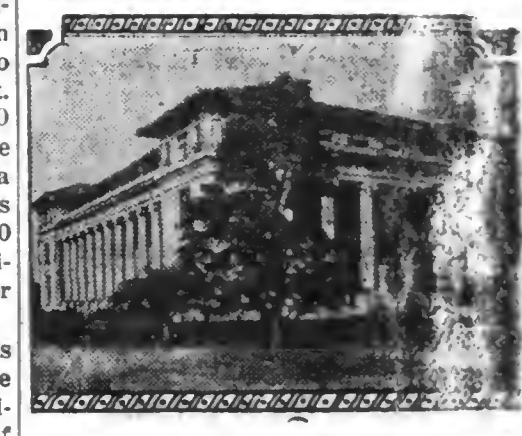

The Filipino pupil, in addition to
learning English and in addition to his
regular studies, learns basket making,
embroidery and hat weaving, the
trades peculiar to the islands, as well
as the domestic sciences and pedagogy.

There are more positions than can be
filled by the trade school and com-
mercial college graduates. The trade
and agricultural schools produced \$1,
176,850 worth of goods in 1919.

There is nothing that the Filipino
people take more pride in and that

they are more grateful to the United
States for, than their school system,
which has been declared by many com-
petent critics to be one of the finest
in the world. While the system was
implanted in the islands by Ameri-
cans, every cent of the cost has been
cheerfully borne by the Filipino peo-
ple. The schools are making an Eng-
lish speaking race of the Filipino na-
tion. English is the official language,
and it is declared will continue to be
when independence is granted.

"The Filipino boys and girls are
well balanced, docile and industrious."

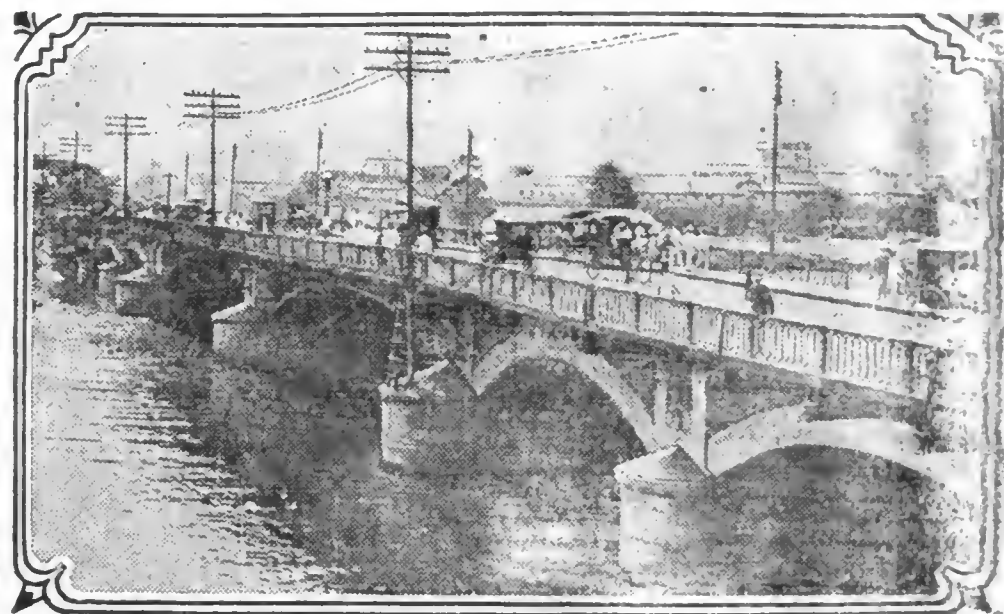

University of the Philippines which
Has an Enrollment of 3,500 Students.

pupils," says Junius B. Wood, who
sent to the islands by the Chicago
Daily News to investigate conditions
there. "To attend school is a privi-
lege to a Filipino child or young man,
not an unwelcome duty. In the cities
those who work days go to school at
night."

"Today there is hardly a house
where youngsters cannot be found who
speak English. One-third of the house
of representatives and eighteen of the
twenty-four senators speak English.
In the next election, in 1922, the young
men of the new schools will be step-
ping into control, and the first great
goal of the public school system will
have been reached."

A Passing Landmark of Old Manila

This is a photograph of the famous old Bridge of Spain, Manila. It is
now a departed landmark of the Philippines, for its place has been taken by
one of the finest bridges in the entire Orient, the new Jones bridge.

The Jones Bridge is named in honor of the late Congressman W. S. Jones
of Virginia, author of the Jones law of 1916, which promised the Filipinos
independence upon the establishment of a stable government.

The old Bridge of Spain is called "the mother of Manila's bridges." The
original bridge was built of pontoons sometime between the years 1500 and
1600, being known as the Bridge of Boats. The stone bridge shown above
was built about 1630. It was twice damaged by earthquakes, and was com-
pletely demolished by a flood.

PRESS COMMENT ON PHILIPPINES

The Philippines!
(Shenandoah (Va.) Post.)
Our idea of the Philippine question
is to get out as quickly as possible
and stay out. What do you say?

Our Little Brown Cousins
(Argus, Rock Island, Ill.)
There is no mistaking that Filipinos
want their independence. And it is
just possible, as they insist, that they
in the islands, better than we Ameri-
cans over here, are the best judges of
whether they are fitted for indepen-
dence. The United States wants no
outburst in the Philippines as England
faces in Ireland. The easiest way to
head off a rebellion is to give the

islands their independence before they
have cause to rebel.

Shall We Let Philippines Go?
(Cedar Rapids (Ia.) Republican.)
The United States cannot continue
to hold the Philippines unless this na-
tion wants to give the lie to its own
professions in the matter. The United
States must keep faith with the world.
The American people do not want the
Philippine Islands to become the
Irish question.

Filipinos Are Making Headway
(Mt. Vernon (O.) Republican-News.)
The Filipinos are making an inter-
sive and intelligent campaign for in-
dependence. They are urging their
claims with shrewdness and vigor.
They declare that they have passed
beyond question that they are capable
of self-government, and they believe
that with independence the Filipinos
will so conduct himself as to gain the
respect of the world.

By Health Department.

Don't go on your vacation into the country where there is doubtful water supplies without first being immunized by typhoid serum. It is painful.

Don't drink from springs or creeks when outing. Take a water supply with you.

Don't drink river water. Many are empty into rivers.

Don't buy milk or drink milk coming from a dairy not having an approved permit from the City Health Office.

Don't fail to have your house well screened early in the spring and kill every winter fly that remains within.

Don't drink from springs in the parks. Use the hydrants. There are hydrants in every park.

Don't leave food uncovered so the flies can get on it. They are carriers of typhoid fever.

Don't buy meat from a meat market that does not keep its meat well screened and in ice boxes.

Don't fail to be immunized against typhoid fever if a case is ill in the home.

Don't buy fruit and vegetables from a store that allows them to be unscreened and flies to walk over them.

Don't fail to report to the Health Office every case of typhoid fever you know of. If you fail you are not doing your duty as a citizen and are disobeying the law.

Don't wait another day. Be immunized against typhoid fever before the summer months and typhoid season begins.

Don't fail to report overflowing vaults to the City health Department.

Don't picnic or bathe or allow children to wade near or in places in which you know sewerage is emptied.

Mr. Eldridge Page is still confined to his home. We all miss him no little as he is one of those jolly fellows, who always made us enjoy life. God bless you brother, we all love you.

Mr. Chat Dohoney has been on the sick list, but is better at present.

Quite a lot of fertilizer has come to this section and quite a lot of our money has gone out. Not quite perfect yet in our method of farming.

You often hear a fellow kicking on education, but you can always find a class for him, as we have three places to put him, and he will fit fine in one of them. First he belongs to that class that was deprived of education and is jealous of the fellow who was more fortunate than he. Second, he was too lazy to dig. Third, he was too stingy to spend the time and money required. Well, we make some improvements as the days go by. Our school house is being greatly improved. The Judd Bros., are doing the work and that is a guarantee of a good job.

Let every body get ready to spend a happy and profitable day at Pollards' Chapel the first Sunday in June, as the new church will be dedicated on that day. All the older people have a special invitation as it will be a home coming to many of them, and may never come to them again.

It begins to seem as if it may be advisable to adopt another amendment making it unconstitutional to have a rasin in your possession.
